

Boring Releases

How We Ship Every Week Without Drama

by Kristoffer

Nordström

CodePath & Background

CodePath?

Background

Full autonomy

My Current Role

Role Description - A lot of things that architects don't do

- Testing
- Primary interface for stakeholders and users
- Bug reports and triage
- Requirements
- Mock-ups
- End-to-end test automation
- 2nd level support for Operations
- Project lead
- Scrum master
- Bug fixes & small features
- Releases & announcements

Communications and relationships
